

BOS PERFORMANCE EXHAUST SYSTEMS

Mounting Instructions

Stand Stopper

Modifications and kits are always mounted without the responsibility of Bosdempers BV and are designed for racing purposes only.

Steps:

Put the bike on the sidestand.

Remove the left main bolt of the centerstand.

Mount the BOS standstopper as shown at the centerstandholder.
(welded pin topside)

Be sure to tighten the bolt properly.

After mounting check if the centerstand stays free from the chain.
